

Comparative Resume Generation using Multiple LLMs

Ariño, Cedric D.

BS Computer Science - 2B

21st Century IT Skills

Prompt

“Create a one-page professional resume using the following personal details. The resume should present the information in a clear, concise, and well-structured manner suitable for an entry-level college student applying for internships or technical roles. Use a clean, modern, and minimalist design style with clear section headings and balanced formatting. Ensure the content is polished, professional, and easy to read, while highlighting both technical and creative strengths. The individual's name is Cedric D. Ariño. Contact details include email at cedricarino12@gmail.com , and phone number (+63) 966 182 5317. For education, include Ateneo de Davao University where the student is currently pursuing a college degree starting in S.Y. 2024 with an expected graduation year of 2028 and a QPI of 3.68. Also include Philippine Science High School - SOCCSKSARGEN Region Campus, completed from S.Y. 2018 to 2024 with a GWA of 1.15. Skills include programming languages such as Python, C++, and Arduino, as well as tools like Microsoft Office, Google Workspace, and Canva. Additional strengths include feature writing, journalism, problem-solving, attention to detail, and organizational skills. For experience, include involvement in Ashen Insider, a personal website where roles included WordPress Developer, Web Designer, Online Researcher, Feature Writer, and Social Media Manager. Also include a research project titled “Luntihouse: An Environment-regulating Greenhouse System Prototype” conducted during S.Y. 2022–2023. Include a section for achievements highlighting the following: 2nd Place in the Kid’s Innovation Camp (KIC): UNICEF Edition Design Challenge 2023, participation as an exhibitor in the National Science, Technology and Innovation Week (NSTW) 2023, presenter in the Regional Youth Learning Exchange on Climate Change held in Jakarta in 2024, Best Teamwork award in the Belt and Road Teenager Maker Camp 2020, multiple Director’s List recognitions, and awards in regional and division-level science and technology feature writing competitions. Ensure the resume fits within one page, avoids unnecessary verbosity, and emphasizes clarity, strong wording, and professional tone. Specific details: Full Name Cedric D. Ariño Contact Information Email: cedricarino12@gmail.com Phone: (+63) 966 182 5317 Education Ateneo de Davao

LLM Outputs

Output from LLM #1 Claude:

CEDRIC D. ARIÑO

cedricarino12@gmail.com · (+63) 966 182 5317

EDUCATION

Ateneo de Davao University

S.Y. 2024 – Present

Bachelor's Degree (Expected Graduation: 2028) QPI: 3.68

Philippine Science High School – SOCCSKSARGEN Region Campus

S.Y. 2018 – 2024

Senior High School GWA: 1.15

SKILLS

Programming & Tools: Python, C++, Arduino · Microsoft Office, Google Workspace, Canva

Communication & Soft Skills: Feature Writing, Journalism · Problem-Solving, Attention to Detail, Organizational Skills

EXPERIENCE & PROJECTS

Ashen Insider

Personal Website (Inactive)

WordPress Developer · Web Designer · Online Researcher · Feature Writer · Social Media Manager

– Independently designed and managed a personal website encompassing content creation, web development, and digital marketing.

Lunthouse: An Environment-Regulating Greenhouse System Prototype

S.Y. 2022–2023

Research Project (Unpublished)

– Conceptualized and developed an automated greenhouse system prototype integrating environmental regulation and sensor-based controls.

ACHIEVEMENTS & RECOGNITION

– 2nd Place – Kid's Innovation Camp (KIC): UNICEF Edition Design Challenge (2023)

– Exhibitor – National Science, Technology and Innovation Week (NSTW) 2023

– Presenter – Regional Youth Learning Exchange on Climate Change, Jakarta, Indonesia (2024)

– Best Teamwork Award – Belt and Road Teenager Maker Camp (2020)

– 1st Place – Regional Schools Press Conference, SciTech Feature Writing

– 1st Place – Division Schools Press Conference, SciTech Feature Writing

– Multiple Director's List Recognitions (2020–2024)

Programming Languages: Software & Tools: Professional Skills: Organizational Skills	Python, C++, Arduino Microsoft Office, Google Workspace, Canva, WordPress Feature Writing, Journalism, Problem-Solving, Attention to Detail,
PROJECTS & EXPERIENCE	
Ashen Insider (Personal Website) WordPress Developer, Web Designer, Feature Writer, Online Researcher, Social Media Manager - Designed, developed, and maintained the website architecture utilizing WordPress. - Authored engaging feature articles and conducted comprehensive online research for content generation. - Managed social media presence to increase visibility and audience engagement.	Inactive
Lunthihouse: An Environment-regulating Greenhouse System Prototype Research Project (Unpublished) - Conceptualized and prototyped an automated greenhouse system aimed at regulating environmental factors for optimal plant growth. - Applied technical problem-solving and electronics skills to build functional prototypes.	S.Y. 2022 – 2023
ACHIEVEMENTS & AWARDS	
Presenter – Regional Youth Learning Exchange on Climate Change (Jakarta, Indonesia, 2024) 2nd Place – Kid’s Innovation Camp (KIC): UNICEF Edition Design Challenge (2023) Exhibitor – National Science, Technology and Innovation Week (NSTW) (2023) 1st Place – Regional Schools Press Conference (SciTech Feature Writing) 1st Place – Division Schools Press Conference (SciTech Feature Writing) Best Teamwork – Belt and Road Teenager Maker Camp (2020) Director’s List Recognitions – Philippine Science High School (Multiple awards from 2020 – 2024)	

Comparison Table

Criteria	LLM #1 (Claude)	LLM #2 (Gemini)
Structure	Uses clear sections (Education, Skills, Experience & Projects, Achievements & Recognition). However, section titles are stylized with spaced-out lettering, which slightly affects readability.	Follows a very standard and logical structure (Education, Technical & Professional Skills, Projects & Experience, Achievements & Awards). Section naming is more conventional and easier to scan. Slightly better separation of content.
Clarity	Concise and direct, but less descriptive. Bullet points are shorter and provide limited detail about responsibilities and impact.	More detailed and descriptive. Provides clearer explanations of roles, responsibilities, and contributions, making the content easier to understand and more informative.
Formatting	Uses a uniform style with spaced headings and smaller font size. While clean, the design reduces readability and visual hierarchy. Limited variation in emphasis.	Better visual hierarchy with larger font sizes and clearer section separation. Use of spacing and formatting improves readability. Overall layout is more reader-friendly and easier to follow.
Overall Quality	Professional and clean but slightly minimal to the point of lacking depth. Formatting choices (tight spacing, stylized headings) reduce readability.	Stronger overall output. More polished, readable, and informative. Balances detail and structure effectively, making it more suitable for real-world use.

Reflection

Between the two LLMs I used, Gemini produced the better overall output. While both resumes followed a similar structure and included the required sections, Gemini's version stood out because it was more detailed, descriptive, and easier to read. It provided clearer explanations of my roles and experiences, which made the content feel more complete and informative. In contrast, Claude's output was more concise, but at times it felt too minimal and lacked depth. Its formatting, particularly the use of spaced-out headings and smaller text, also made it slightly harder to read compared to Gemini's cleaner layout.

One of the main differences I observed was how each model handled clarity and formatting. Gemini focused more on readability and organization, while Claude leaned toward a more compact and stylized presentation. This showed me that even with the same prompt, different LLMs can prioritize different aspects of content generation.

In creating my final resume, I combined the strengths of both outputs. I adopted Gemini's clearer structure and more descriptive content, while also keeping some of Claude's concise phrasing where appropriate. I also made adjustments to better fit my personal preferences, such as simplifying sections and organizing the layout in a way that highlights my skills and experiences more effectively.

Overall, this activity helped me understand the importance of prompt design and critical evaluation. It showed me that LLM outputs are not perfect and still require refinement, and that selecting and combining the best elements from different outputs leads to a stronger final result.
